 Size: 36"H x 21"W x 6.5"D
 Material: Aluminum frame, plastic reservoir
 Glass: Non Tempered Silver Mirror
 Lighting: Halogen - Optional LED + \$19.00

Think these fountains are similar? Think again...

Looks can be deceiving especially when you're shopping on the Internet looking at a relatively small image. You have to rely on a photo and the description, hopefully it's enough for you to make an informed choice.

Sure these two fountains are close in style, price and size but that's where the similarities end. What you can't see on the Internet is the value and quality. Let's be real..not everything made in China is bad, even iPhones are made there and not everything made in the US is great.

The Bluworld Contempo Fountain features tempered glass for safety and marine grade stainless steel construction unlike Adagio's aluminum frame with a silver powder coat finish and plastic basin.

It's said "Imitation is the highest form of flattery" but we're not flattered by this knock off.

Now which one would you rather buy?
